

Amendments to the Substitute Specification:

Please replace paragraph [0039] with the following amended paragraph:

[0039] If a greater rigidity is necessary for the horizontal container edges around the bottom, then according to FIG 4 the interior partial profile may have a greater cross section, e.g., may be designed as a hollow profile member such as a tube or pipe 20 with tabs 21, and 22 welded on for fastening the interior covers 4 and 5 and/or 4' and 5'. The exterior partial profile of the two-part edge profile is designed as an arc of a circle 23 in this embodiment.
